Re: Stocking Report for Sharon Giddings  
Tax Lot #400, Sec 27, T16S, R2E, WM., ±39.2 acres  
Property is located ≈2 miles northeast of Vida, off of Gate Creek Road

A stocking survey of the property was completed in April and October, 2018. A well-stocked 35 year old stand of Douglas-fir approaching merchantable size covers 14.5 acres of the parcel, 1.5 acres are well-stocked with 6 year old Douglas-fir reproduction, 6.4 acres are moderately to well stocked with 6 year old Douglas-fir reproduction and 7.9 acres are well-stocked with 16 year old Douglas-fir reproduction. The remaining acres are in two riparian zones, roads and a mix of hardwoods and brush.

All of the stocked areas (as delineated on the included aerial photo) meet and/or exceed the stocking levels as stated in ORS 527.610 to 527.770 of the Oregon Forest Practice Rules and Statutes.

I have covered the property; to the best of my knowledge the information provided is accurate and correct.

Sincerely,

Certified Forester #2953
